

DRYER VENT SERVICE REPORT

Blank worksheet | Record only observations, measurements, and work that occurred.

01 Visit, customer, and property

Business / contact:

Report number:

Visit date / time:

Technician:

Customer / contact:

Property / unit:

Dryer identification / type:

Termination / location:

☐ Serviced

☐ Access attempt - no service performed

Access reason / limits (identify components not inspected):

02 Airflow readings (only when measured)

Before: _____ After: _____ Unit: _____

Blank = not measured. Zero = measured zero. Do not compare unlike units.

Measurement point / method / instrument:

Dryer settings / device mode / sampling / changed conditions:

03 Findings

For each component: concern / no observed concern / not inspected / not applicable.

Termination:

Transition duct / connections:

Vent run / access:

Describe observations and whether concerns were addressed. Continue on page 2.

No-access attempt: leave readings and work blank; do not claim inspected components.

SERVICE RECORD / CONTINUED

Report number: _____ Property / unit: _____

04 Work actually performed / additional findings

Record completed tasks and remaining limits. No-access attempt: no service work.

05 Photo references and captions

Keep photo attachments with this report. Identify location and before / after / access.

Photo / file ID:	Stage / location / caption:
